An Overview

Windlass chains need to be calibrated to ensure consistent dimensions. Furthermore, the same chain is rarely interchangeable between different makes of windlasses. Even if the chain diameter is the same they are likely to require links of different dimensions to ensure a good fit. Large end links, shackles and anchors are available. Our “Mooring and Anchoring” booklet gives guidance on suitable chains and anchors. Ask our sales office to send one.

The prices above are ex-works, valid for orders over £200 and **discounts are available on orders over £500**. Unfortunately steel prices are currently unpredictable so prices may change without notice. If you need chains for other makes please contact us

For up to date prices and availability please contact our sales office who will be happy to quote for your specific enquiry.
